Meet the Society of Women Engineers' (SWE) WE Local program SWENext DesignLab!

SWENext DesignLab is a half-day event that will encourage girls in grades 6-8 to become engineers! We're going to do this through exciting programs, which also includes an awards event for high school girls.

Middle School Program (Grades 6 - 8)

- Work with local SWE members on creative, hands-on engineering activities
- Meet real engineers and learn what they do
- Make new friends
- Get a SWE t-shirt, bag and lots of other goodies
- Be eligible to win raffle prizes

The cost to attend is \$7. Financial assistance is available upon request.

Parent/Educator Program (PEP)

- Learn about engineering careers, scholarships, college admission and resources
- Network with SWE members as well as other parents and educators
- Complete a hands-on activity and learn best practices for engineering projects with girls
- Join the girls at the end of the day for show and tell, and raffles

The cost to attend is \$5. Financial assistance is available upon request.

High School Program (Grades 9 - 12)

BE RECOGNIZED BY THE WORLD'S LARGEST COMMUNITY OF WOMEN ENGINEERS

SWENext Local Innovator Award: Recognizes young women making an impact on their future and their community through STEM. Open to grades 11-12.

Northrop Grumman Community Award: This award emphasizes the impact SWENexters can have in their communities through creative engineering. Open to grades 9-12.

Award recipients will receive registration for one of the WE Local conferences, network, be an engineer's assistant, inspire younger girls and receive goodies.

Applications for the award programs are open through February 24, 2018.

Visit welocal.swe.org/designlab and welocal.swe.org/milwaukee/sndl-award/ for more details.

Email us at designlab@swe.org with questions.
