

## 2021 WE Local Travel Grant Summary

WE Local Travel Grants were established to provide financial assistance to SWE members who attend WE Local North America conferences. [Donations made to WE Local's Travel Grant fund](#) along with overages (as applicable) from prior WE Local conferences are used to fund the grants.

Grants provide support to SWE members who may not have access to funding and in result may not benefit from attending a WE Local conference that builds networks, provides professional development and inspires and unites individuals in engineering and technology.

You may apply as a Collegiate or Professional Member and may only submit one application per fiscal year. The written statement will be evaluated by the WE Local Awards Subcommittee to determine who will receive funding.
